Part I: Administrative Issue (30 minutes)

Visit of Professor Dolores Rafter Arévalo on 04/26/08 at 2:00 – 3:30 p.m. (we’ll have an hour of class or as soon as the presentation is over, we’ll resume classes).
Materials are due next week. Please forward the first drafts to me as soon as possible.

Part II: Literature Review (60 minutes)

Your writing and the influence of Spanish rhetoric has caused problems when reading your drafts. Look at the following examples from your own writing and tell me what is wrong with them. Can you see any problem when you compare them with articles you have read for your research?

Plagiarism and its forms: Plagiarism is not just not giving credit to the author, but also to give credit and copy exactly what the author wrote without the proper citation. See the next examples taken from your own work. Read the APA manual Appendix C: Ethical Standards for the Reporting and Publishing of Scientific Information.

Re-read in depth Chapter 1 of Mackey and Gass (2007) and the APA manual manuscript section (p. 283)

Part III: Materials (CLT and the Hybrid) (60 minutes)

Continue on the construction of the materials for collecting data. Start thinking what kind of data you will get with the exam and how these exams should look like. Materials are due next week and they should be ready to be applied. Feedback has been given during last week for those of you who have sent them to me. If you have not done it, please do it today during this section of the class.
